A scientific journal's greatest responsibility is to ensure that all contributions accepted for publication are rigorously but fairly reviewed. The Editor-in-Chief and Archives of Pediatric Neurosurgery gratefully acknowledge the qualified and regular collaboration of renowned medical doctors and scientists who kindly devoted their time to constructively review the submitted articles. Their expertise and invaluable assistance contributed to maintaining a high scientific standard for APN. We are thus indebted to the Editorial Board members and the following experts who reviewed papers and completed the peer-reviewing process within 2025.
